What to Beauty: Velana K Lipgloss

Lipgloss lovers, this one's for you. Whether you are a gloss junkie (10-15 different shades in your handbag) or simply a devoted fan of soft, shiny lips (3-5 glosses in purse at all times), there's always room for a new favorite. I was just introduced to **Velana K's** new line of luscious lip enhancers and I'm thoroughly impressed by the pretty palette of ten essential shades. There's a petite tube for all of you. My personal fave is the naturally beautiful shade called Holly. But if you like crimson red, check out Courtney. Kim is a soft, cotton-candy pink and Jennifer is a sassy, bold pink (perfect for summer).
